KEY QUESTIONS

CYBERSECURITY

What are your agency’s biggest cybersecurity concerns that the incoming leadership should know about and how do you plan to address them? Who is presently responsible for identifying and managing cyber risk and is the budget sufficient to strengthen cybersecurity?

CUSTOMER NEEDS

Does your agency have a full view of federal services that your customers receive? How does your agency use technology to inform this view, meet customer need and make it easier to receive the services or information required?

MODERNIZATION

In your agency how does data get shared internally and with external stakeholders? What 3-5 existing systems require a significant upgrade (e.g., are inefficient and out of date, no longer meet mission need or present risks to cyber security). What budget capacity do you have to upgrade and what other methods might you use (e.g., cloud and shared services)?

The Partnership’s Center for Presidential Transition helps ensure the efficient transfer of power that our country deserves. The Center’s Ready to Govern® initiative assists candidates with the transition, works with Congress to reform the transition process, develops management recommendations to address our government’s operational challenges and trains new political appointees.
